

## **ICMPhotoMag Workshops COVID Policy**

The safety and wellbeing of our participants is a top priority. For all workshops, we adhere to and abide by the national UK guidelines for COVID-19 protocols that are in place at the time of the workshop.

The current guidance is based on a “living with COVID” strategy, and we align with government policies for this and other respiratory illnesses. In general, this means “business as usual” without restrictions. Our workshops will carry on as planned in the event any workshop leader or participant exhibits signs or symptoms of COVID, and it is the responsibility of all parties to protect themselves and/or minimize spread, the same as it would be for any other respiratory illness, such as flu, through individual protective measures.

There is an inherent risk of contracting any communicable disease when participating in workshops, and this policy is equally applicable to all known respiratory illnesses and is aligned with local UK law.

### **COVID Cancellation Guidelines**

The ICMPhotoMag Workshops [Terms & Conditions](#) apply.
